

## LICENSED MENTAL HEALTH CLINICIAN

Therapeutic Solutions is looking for exceptional licensed clinical staff to provide assessments, individual and group therapy; as well as participate in our and program development.

Therapeutic Solutions provides collaborative therapeutic interventions for our clients in the areas of group therapy, medication management, Transcranial Magnetic Stimulation (TMS) and more. We frequently hear from our clients how important it is for them to have centralized care and establish long-term medication management at our facility. Our clinicians hone their crisis expertise as they assist clients to stabilize their mental health symptoms in our Partial Hospitalization Program (PHP). In a Partial Hospitalization setting, clients attend extended group day treatment and can go home in the evenings. Once clients become more stable and ready to receive specialized group treatment, our team supports clients as they navigate to one of our Intensive Outpatient programs (IOPs). Our clinicians rotate to different treatment areas in our IOP programs to fulfill their interests or to fulfill their clinical requirements. Our treatment team opportunities include Adolescent Care, Dialectical Behavioral Therapy, and Mental Health/Dual Diagnosis treatment. In each of these programs, clinicians provide both group therapy, with supportive individual and family sessions as needed.

Therapeutic Solutions is the only adult behavioral health facility of its kind north of Sacramento. Headquartered in Chico, CA. We receive referrals from all over Northern California for clients experiencing acute symptoms and are leaving a hospital setting OR attempting to prevent a full hospitalization. Therapeutic Solutions offers both partial hospitalization and intensive outpatient programs as an alternative to acute inpatient care.
